Use 'Promo Items' field to specify SKUs of the products that should be used for promo. If you specify several SKUs here, all these items will be added to cart with each discount step.

Use the conditions block to specify items to which the rule should apply. According to this rule a free camera case will be automatically added to cart for each product from 'Digital Cameras' category. For example, if a customer adds two cameras to the cart, he or she will get two free camera cases.

'Auto add promo items for the whole cart' action lets you provide a promo item (or items) only once in one order.

'Discount Amount' field can be used to specify the number of free promo items to be added to cart.

If conditions of this rule are met, one free camera case and one free camera tripod will be added to cart, however not more than one time.

Update Shopping Cart

The promo rule label is displayed above the shopping cart.

The free item is marked with the message that you specify in configuration section of the extension (see page 3 of this guide).

As you can see there's one digital camera in the cart, so one free camera case got added automatically.

On order view page in admin panel the free item is prefixed with the message that you specify in configuration section of the extension (page 3 of this guide).
